Academic Survey Report

(A report on Academic survey of faculties in School of Health and Allied Sciences.)

1. Background

Pokhara University (PU) was established in 1997 under the Pokhara University Act, 1997. PU is a non-profit autonomous institution. It has 4 constitute school, 2 jointly-constitute schools and 58 affiliated colleges. School of Health and Allied Sciences is one of the school which runs different Bachelor and Master Programs related to Health Sciences. This school has currently 5 Bachelor program and three master level program i.e Pharmaceutical Sciences, Public Health and Medical Microbiology and Medical Biochemistry. The school is moving towards the fulfillment of its vision “production of skilled and qualified human resources in the field of medical and paramedical sciences. The nation demands of higher education with high quality which is still unfulfilled and there is only QAA which provides quality assurance for the university/colleges providing higher education so QAA certification is an essence stone to ensure the effectiveness of educational programs of university/colleges, valid for a specific period of time.

The University Grants Commission (UGC) Nepal has launched the Quality Assurance and Accreditation (QAA) program, as an important aspect of reform in higher education in Nepal.

According to UGC, Accreditation aims to provide quality assurance that the academic aims and objectives of the institution are known to be honestly pursued and effectively achieved by mobilizing the resources currently available, and that the institution has demonstrated capabilities to ensure effectiveness of the educational programme(s), over the validity period of accreditation.

2. Committee

School of Health and Allied Sciences has decided to work on a possibility to get QAA accreditation and formed a Committee to prepare a report on academic survey to initiate the QAA accreditation , comprising the following members:

1. Raju Pandey
2. Shreejana Wagle
